

****Patient: Mrs. Vaani, 39 years old, Female****

****Key Findings and Abnormalities in Laboratory Report:****

1. ****Hemoglobin:**** 11.7 gm/dl (Normal range: 12 - 16 gm/dl)
 - Slightly below normal, indicating mild anemia.

2. ****Total WBC (White Blood Cells):**** 5500 cells/cumm (Normal range: 4000 - 11000 cells/cumm)
 - Within normal limits.

3. ****Differential Count:****
 - Neutrophils: 58% (Normal range: 40 - 70%) - Normal.
 - Lymphocytes: 37% (Normal range: 20 - 40%) - Slightly elevated, but close to upper normal limit.
 - Eosinophils, Monocytes, Basophils: All within normal ranges.

4. ****Platelet Count:**** 2.14 Lakhs/cumm (Normal range: 1.5 - 4.5 Lakhs/cumm)
 - Within normal limits.

5. ****RBC (Red Blood Cells):**** 4.31 mill/cumm (Normal range: 3.5 - 5.5 mill/cumm)
 - Within normal limits.

6. ****PCV (Packed Cell Volume):**** 33.4% (Normal range: 36 - 48%)
 - Below normal, consistent with the finding of anemia.

7. ****MCV (Mean Corpuscular Volume):**** 77.6 fl (Normal range: 80 - 99 fl)
 - Below normal, suggesting microcytic anemia.

8. **MCH (Mean Corpuscular Hemoglobin):** 27.2 pg (Normal range: 26 - 32 pg)

- Within normal limits.

9. **MCHC (Mean Corpuscular Hemoglobin Concentration):** 35.1% (Normal range: 32 - 36%)

- Within normal limits but towards the upper end of the range.

10. **Random Blood Sugar:** 68 mg/dl (Normal range: 60 - 140 mg/dl)

- Within normal limits but on the lower side.

11. **Serum Calcium:** 8.5 mg/dL (Normal range: 8.6 - 10.3 mg/dL)

- Slightly below normal, indicating mild hypocalcemia.

Summary:

Mrs. Vaani presents with mild anemia characterized by slightly low hemoglobin and PCV, and microcytosis as indicated by a low MCV. Additionally, there is a mild decrease in serum calcium levels. Lymphocyte count is slightly elevated but within close range to normal. Other parameters including total WBC, platelet count, RBC, MCH, MCHC, and random blood sugar are within normal limits. These findings should be clinically correlated by the treating physician, Dr. Sini Arjun, for appropriate management and further investigation if necessary.
